Athlete Eligibility

Special Olympics training and competition is open to every person with an intellectual disability who is at least eight years of age. There is no maximum age limit. Children who are ages two through seven may participate in the Young Athletes Program (there is a different registration form available on the Web site for this program).

A person is considered to have an intellectual disability if that person satisfies any one of the following requirements: 1) the person has been identified by an agency/professional as having an intellectual disability as determined by their localities, 2) the person has a cognitive delay, as determined by standardized measures such as intelligent quotient (IQ), or 3) the person has a closely related developmental disability meaning that person has functional limitations in both general learning (such as IQ) and in adaptive skills such as in recreation, work, independent living, self-direction, or self-care. Persons whose functional limitations are based solely on a physical, behavioral, or emotional disability or a specific learning or sensory disability are not, however, eligible to participate as Special Olympics athletes.

OFFICIAL SPECIAL OLYMPICS RELEASE FORM
TO BE COMPLETED BY PARENT, GUARDIAN, CAREGIVER OR ADULT ATHLETE (OWN GUARDIAN)

A release form only needs to be completed once with no renewals required. Due to a recent change to this form as of 8/18/13, however, any athletes renewing their participation form must complete an updated release form this one time.

Local Program ____________________________________________________________

I represent and warrant that to the best of my knowledge and belief, _____________________________ is physically and mentally able to participate in Special Olympics. With my approval, a licensed physician has reviewed the health information set forth in the Application for Participation, and has certified, based on an independent medical examination, that there is no medical evidence which would preclude the athlete’s participation. I understand that if the athlete has Down Syndrome, he/she cannot participate in sports or events which, by their nature, result in hyper-extension, radical flexion or direct pressure on the neck or upper spine unless I and two physicians have completed the official “Special Release for Athletes with Atlanto-Axial Instability,” available from the Special Olympics Program in my jurisdiction, or I have a full radiological examination that establishes the absence of Atlanto-Axial instability. I am aware that the sports and events for which this release or radiological examination is required are judo, equestrian sports, gymnastics, diving, pentathlon, butterfly stroke and diving starts in swimming, high jump, alpine skiing, snowboarding, squat lift and soccer.

In permitting the athlete to participate, I am specifically granting my permission, forever, to Special Olympics to use the athlete’s likeness, name, voice and words in television, radio, film, newspapers, magazines, and other media, and in any form for the purpose of publicizing, promoting, or communicating the purposes and activities of Special Olympics and/or applying for funds to support those purposes and activities.

By signing below, I am also allowing the athlete to participate in the Special Olympics Healthy Athletes Program which provides individual screening assessments of health status and healthcare needs in the areas of vision; oral health; hearing; physical therapy; and a variety of health promotion areas (height, weight, sun protection, etc.). I understand that information that is gathered as a part of the Healthy Athletes Program may be used in group form (anonymously) to assess and communicate the overall health needs of athletes and to develop programs to address those needs. I understand that notwithstanding my consent, there is no obligation for the athlete to participate in the Healthy Athlete Program and I may decide that the athlete will not participate. I understand that the provision of these health services is not intended as a substitute for regular care.

I acknowledge that Special Olympics events may involve overnight activities and that the housing arrangements for each event may differ. I understand that I should contact the Special Olympics Program in my jurisdiction if I have any questions about housing arrangements for a specific event or the housing policy in general.

If a medical emergency should arise during the athlete’s participation in any Special Olympics activities at a time when I am not personally present so as to be consulted regarding the athlete’s care, I hereby authorize Special Olympics, on my behalf, to take whatever measures are necessary to ensure that the athlete is provided with any emergency medical treatment, including hospitalization, that Special Olympics deems advisable in order to protect the athlete’s health and well-being. If you have religious objections to receiving such medical treatment, please cross out this paragraph, initial it and sign and attach the Special Provisions Regarding Medical Treatment Form.

I, the undersigned, am parent/guardian/caregiver/athlete (own guardian) of the athlete named in this application. I have read and fully understand the provisions of the above release and have explained these provisions to the athlete. Through my signature on this release form, I am agreeing to the above provisions on my own behalf and on the behalf of the athlete named above.

I hereby give my permission for ___________________________________________ to participate in Special Olympics training, competition, and physical activity programs.
