Target Pass

Athletes shall receive five consecutive attempts at passing a basketball toward a measured target on the wall and retrieving the rebound off the wall without leaving the designated starting square. Points are awarded based on where the ball strikes the target square. One point is also awarded if the athlete is able to retrieve the rebound off the wall without leaving his or her starting square.

Ten-Meter Dribble

Athletes are charged with dribbling a basketball through a marked, ten-meter course while being timed. The athlete is not considered to have completed the course until they pass through the finish cones. If an athlete loses his or her dribble, they may retrieve the ball or go back and retrieve the spare ball from the starting line. Points are awarded based on the time it takes to complete the course. Penalties for stopping, running without dribbling, and dribbling with two hands will be assessed. Each athlete shall have two, non-consecutive attempts.

Spot Shot

The area underneath the basket will be marked with six different spots from which athletes will attempt shots. Each athlete gets two consecutive attempts at each spot.
