

Virtual Coach Trainings

Every attendee will need to be an active participant in their selected training; meaning webcam must be on and be engaged in the dialogue for the duration of the training. If you have another obligation you are doing that day and time, we respectfully ask that you reschedule so distractions for you, the clinician and the other coaches are kept to a minimum.

The first part of the training will focus on Coaching Special Olympics Athletes, a required course for all Certified Coaches as well as a chance for veteran coaches to share their knowledge. The second half of the training will focus on the sport skill selected upon registration. Sports are subject to change based on enrollment.
